Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This is the second volume in a Series entitled Journeys in Consciousness, a compilation of the extensive writings and transcriptions from the life of Charles DeTurk. They are all brought up-to-date and placed in a contemporary context with extensive commentary. In the process of sharing these writings we have a record of how a single individual, driven by curiosity, grows in understanding the wisdom and functioning of life and the universe of experience. In a day and age when we hear a lot about how people need to learn to think outside of the box, Charles has been living a large part of his life outside of the box. And from that place of awareness, he has gathered together, over the years, some very interesting, meaningful, and insightful perspectives upon life and upon all of this stuff out here that we call reality. His goal, for decades, has been to discover ideas and principles that will help people to be able to rediscover the truths about who and what they truly are, and to thereby allow them to live more happy, healthy, successful and fulfilling lives. Roots of Metaphysics and Quantum Physics starts with what began as a single short essay on metaphysics and quantum physics that quickly grew into an eight part series. These are ideas that are coming more and more to the fore in our lives and consciousness as increasing numbers of people become aware, through the discoveries of science, the veracity of ancient spiritual truths. What s more, this book, not only examines a whole host of ideas, but it delves into explaining how they specifically affect our individual lives in very profound ways....
