BROADBAND SHOCK NOISE IN INTERNALLY MIXED DUAL-STREAM JETS

Broadband Shock Noise in Internally Mixed Dual-Stream Jets

NASA Technical Reports Server (NTRS), James E. Bridges

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 28 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Broadband shock noise (BBSN) has been studied in some detail in single-flow jets and recently in dual-stream jets with separate flow exhaust systems. Shock noise is of great concern in these latter cases because of the noise created for the aircraft cabin by the underexpanded nozzle flow at cruise. Another case where shock noise is of concern is in the case...

Reviews

The publication is great and fantastic. I actually have read through and i am sure that i am going to planning to go through yet again yet again down the road. I realized this pdf from my dad and i encouraged this publication to understand.

-- **Jamarcus Runolfsson**

Comprehensive manual for pdf fans. It is full of wisdom and knowledge You will like how the writer publish this book.

-- **Mr. Ezequiel Rolfson**

Excellent eBook and helpful one. This can be for all who statte there was not a worthy of studying. You will not feel monotony at at any moment of your respective time (that's what catalogs are for regarding when you request me).
