The glide is loose (as when horses are pulled up gradually) when the vowel is long and accented, and tight (as when horses are pulled up dead) when the vowel is short and accented, and the distinction is of importance; but when the vowel is short and unaccented it usually does not glide on to the following consonant at all if both vowel and consonant are in the same word, and the consonant then acts as in (1). In English, pack them, however slowly we may speak the words, no sound whatever is interposed between k and th. This is our normal final mute, when any other sound follows. In pack it up now, there is no off-glide from the k, t, p, however fast the words be uttered, nor any after-sound whatever. 6) When, however, the consonant comes before a pause or silence,...
