Manner of presentation and order in development of the subject have been strongly influenced by the fact that it is intended to be a text-book for the use of students: but with this has gone the purpose of making it a complete engineering treatise, in which the theory of the steam.machine shall be put into a shape convenient of practical application, and which, on the descriptive side, shall lay a solid foundation for the more special and detailed information which must be gained from experience and from the technical press. As to the manner of presentation, it is assumed that the...
