

Steroids and Isoprenoids, Part B: Volume 111: Steroids and Isoprenoids Part B

Filesize: 7.99 MB

Reviews

The most effective ebook i possibly read. it was actually writtern quite completely and useful. I am just very happy to tell you that here is the best publication we have read through during my individual daily life and could be he greatest publication for possibly.

(Kennith Nicolas)

STERIODS AND ISOPRENOIDS, PART B: VOLUME 111: STERIODS AND ISOPRENOIDS PART B

Academic Press. Hardcover. Book Condition: New. Hardcover. 750 pages. Dimensions: 9.3in. x 7.4in. x 1.8in. Strength of Materials provides a comprehensive overview of the latest theory of strength of materials. The unified theory presented in this book is developed around three concepts: Hookes Law, Equilibrium Equations, and Compatibility conditions. The first two of these methods have been fully understood, but clearly are indirect methods with limitations. Through research, the authors have come to understand compatibility conditions, which, until now, had remained in an immature state of development. This method, the Integrated Force Method (IFM) couples equilibrium and compatibility conditions to determine forces directly. The combination of these methods allows engineering students from a variety of disciplines to comprehend and compare the attributes of each. The concept that IFM strength of materials theory is problem independent, and can be easily generalized for solving difficult problems in linear, nonlinear, and dynamic regimes is focused upon. Discussion of the theory is limited to simple linear analysis problems suitable for an undergraduate course in strength of materials. To support the teaching application of the book there are problems and an instructors manual. Provides a novel approach integrating two popular indirect solution methods with newly researched, more direct conditions Completes the previously partial theory of strength of materials A new frontier in solid mechanics This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Hardcover.
